INTRODUCTION

According to the State Text Book Law before boards of education may adopt books it is necessary that they be listed with the State School Book Commission. The books named herein have all been officially listed since the publishing of the 1925 Report at not more than seventy-five per cent of the wholesale list price. A sample copy of each book listed is on file in our office.

First, the name of the publication is shown, then the author, and then the Ohio Contract Price at which the book may be sold.

First, the name of the publication is shown, then the author, and raised during the five year period. Revised editions are considered the same as new books.

OHIO STATE
UNIVERSITY

SECTIONS OF THE GENERAL CODE RELATING TO THE FILING AND LISTING OF TEXT BOOKS

Filing and preservation of copies and price list of school books.

SECTION 7709. Any publisher or publishers of school-books in the United States desiring to offer school-books for use by pupils in the common schools of Ohio as hereinafter provided, before such books may be lawfully adopted and purchased by any school board, must file in the office of the superintendent of public instruction, a copy of each book proposed to be so offered, together with the published list wholesale price thereof. No revised edition of any such books shall be used in common schools until a copy of such edition has been filed in the office of the superintendent together with the published list wholesale price thereof. The superintendent must carefully preserve in his office all such copies of books and the price thereof. (104 v. 225.)

Maximum price; notice to publisher.

SECTION 7710. When and so often as any book and the price thereof is filed in the office of the superintendent of public instruction as provided in section 7709 a commission consisting of the governor, secretary of state and superintendent of public instruction, immediately shall fix the maximum price at which such books may be sold to or purchased by boards of education, as hereinafter provided, which price must not exceed seventy-five per cent. of the published list wholesale price thereof. The superintendent of public instruction immediately shall notify the publisher of such books so filed, of the maximum price fixed. If the publisher so notified, notifies the superintendent in writing that he accepts the price fixed, and agrees in writing to furnish such books during a period of five years at that price, such written acceptance and agreement shall entitle the publisher to offer the book so filed for sale to such boards of education. (104 v. 225.)

Names and addresses of publishers furnished to boards.

SECTION 7711. Such superintendent, during the first half of the month of June, in each year, must furnish to each board of education the names and addresses of all publishers who during the year ending on the first day of the month of June in each year, agreed in writing to furnish their publications upon the terms above provided. A board of education shall not adopt or cause to be used in the common schools any book, whose publisher has not complied, as to such book, with the provisions of law relating thereto. (104 v. 225.)

Violation of agreement by publisher.

SECTION 7712. If a publisher who agreed in writing to furnish books as above provided, fails or refuses to furnish such books adopted as herein provided to any board of education or its authorized agent upon the terms herein

486306

provided, such board at once must notify such commission of such failure or refusal, and it at once shall cause an investigation of such charge to be made. If it is found to be true the commission at once shall notify such publisher and each board of education in the state that such book shall not thereafter be adopted and purchased by boards of education. Such publisher shall forfeit and pay to the state of Ohio five hundred dollars for each failure, to be recovered in the name of the state, in an action to be brought by the attorney-general, in the court of common pleas of Franklin county, or in any other proper court or in any other place where service can be made. The amount, when collected, must be paid into the state treasury to the credit of the common school fund of the state. (92 v. 283 § 4.)

Text books; how determined; five-year term.

SECTION 7713. At a regular meeting, held between the first Monday in February and the first Monday in August, each board of education shall determine by a majority vote of all members elected the studies to be pursued and which of such text-books so filed shall be used in the schools under its control. But no text-books now in use or hereafter adopted shall be changed, nor any part thereof altered or revised, nor any other text-book be substituted therefor for five years after the date of the selection and adoption thereof, as shown by the official records of such boards, except by the consent at a regular meeting, of five-sixths of all members elected thereto. Books so substituted shall be adopted for the full term of five years. (99 v. 460 § 5.)

SECTION 7713-1. The provisions of sections 7709, 7710, 7711, 7712 and 7713 of the General Code shall not apply to the purchase of supplementary reading books, library books, reference books or any other books except text books, required by the board of education. All of such books except text books, required by boards of education, shall be ordered, received, examined and paid for in the same manner and by the same persons as other supplies and equipment. (111 v. 404.)

Text books, of whom ordered.

SECTION 7714. Each board of education shall cause it to be ascertained, and at a regular meeting determine which, and the number of each of such books the schools under its charge require. The clerk or, in city school districts having a director of schools, such director at once shall order the books so agreed upon of the publisher, who on the receipt of such order must ship them to the clerk or director without delay. He forthwith shall examine the books, and, if found right and in accordance with the order, remit the amount to the publisher. The board of education must pay all charges for the transportation of the books out of the school contingent fund. But if such boards of education at any time can secure of the publisher books at less than such maximum price, they shall do so, and without unnecessary delay may make effort to secure such lower price before adopting any particular text-book. (99 v. 460 § 5.)

SECTION 7715. Each board of education shall make all necessary provisions and arrangements to place the books so purchased within easy reach of and accessible to all the pupils in their district. For that purpose it may make such contracts, and take such security as it deems ncessary, for the custody, care and sale of such books and accounting for the proceeds; but not to exceed ten per cent. of the cost price shall be paid therefor. Such books must be sold to the pupils of school age in the district, at the price paid the publisher, and not to exceed ten per cent. therefor added. The proceeds of sales shall be paid into the contingent fund of such district. Boards also may contract with local retail dealers to furnish such books at prices above specified, the board being still responsible to the publishers for all books purchased by it. (99 v. 400 § 5.)

Board of education, power and duties of.

SECTION 7716. When pupils remove from any district, and have text-books of the kind adopted in such district and not the kind adopted in the district to which they remove, and wish to dispose of them, the board of the district from which they removed, if requested, shall purchase them at the fair value thereof, and resell them as other books. Nothing herein shall prevent the board of education from furnishing free books to pupils as provided by law. (99 v. 460 § 5.)

Old books, purchase of.

SECTION 7718. A superintendent, supervisor, principal or teacher employed by any board of education in the state shall not act as sales agent, either directly or indirectly, for any person, firm or corporation whose school text-books are filed with the superintendent of public instruction as provided by law, or for school apparatus or equipment of any kind for use in the public schools of the state. A violation of this provision shall work a forfeiture of their certificates to teach in the public schools of Ohio. (99 v. 460 § 5.)

Who shall not be sales agent.
